

About FMS Advanced Systems Group

The FMS Advanced Systems Group (ASG) is a division of FMS, Inc., an award-winning, small, minority-owned business with 20 years of experience delivering proven database and analytic software to a wide range of customers. FMS's products and applications are widely used by 90 of the Fortune 100 companies, within every US federal government department, along with organizations in over 100 countries worldwide.

FMS ASG has a rich history of proven solutions to complex data and analysis problems. From Bayesian theory to Social Network Analysis to Temporal Analysis and Geospatial Visualization, FMS ASG adapts cutting-edge technologies to solve complex problems. These solutions bridge the gap between technology and usability in innovative ways. The results-driven approach embraced by ASG enables clients to use their data in a collaborative environment that improves operational efficiency.

FMS, an In-Q-Tel portfolio company, is a member of the Oracle Partner Network, an Intel Early Access Program Member, a Microsoft Gold Certified Partner, and was recently named to the Software Development Times list of the World's Top 100 Software Innovators and Leaders.

FMS products and services are available on the General Services Administration (GSA) Schedule. U.S. Federal Government and related organizations can place purchases through GSA Advantage under contract number GS35F0336T.
